Calls may be transferred to a long distance message telecommunications point subject to the availability of the necessary facilities in the central office from which the calls are to be transferred.
3. Call Forwarding Busy/No Answer: Allows a customer to have incoming calls forwarded to another number when the called number is busy or if the customer does not answer after a preset number of rings. Terms and Conditions

4. Call Forwarding (Remote): A central office based service that allows a customer to permanently forward an existing telephone number to a remote or long distance telephone number. The customer is responsible for the long distance charges incurred, not the calling party.
5. Call Forwarding (Selective): Allows a customer to specify a special list of a maximum of 10 telephone numbers. Incoming calls placed to the customer from telephone numbers on that list will automatically be forwarded to a predefined telephone number. All other calls will be handled normally.
6. Call Rejection (Selective): Enables a customer to reject call attempts from up to 10 numbers of calling parties by dialing a code and the telephone numbers of calls to be rejected. Any call attempts to the customer from these numbers will be prevented from terminating to the customer and will instead be connected to an announcement informing the caller that the call is not presently being accepted by the called party. A customer may also reject future calls from the most recent call received by dialing a code after completing the call.
7. Call Waiting: By means of a tone signal a customer who is using his telephone is alerted when another caller is trying to reach that station. This permits putting the first call on hold so that a second call can be answered.
8. Call Waiting Deluxe: Allows a customer to be notified by a special tone if the incoming call is being placed from a long distance number. Call Waiting is part of this feature and operates normally. The customer also has the ability to cancel the call waiting and long distance call waiting features on a call by call basis if he chooses.
9. Call Identification Blocking-Per Call: Enables a customer to control the disclosure of their telephone number or name and telephone number to a subscriber of Caller Identification (where technically feasible) by temporarily changing the public/private status indicator of the telephone number. A customer must dial a code before each call to change the indicator from public to private. "Public status" allows delivery of the telephone number or delivery of the telephone number or name and telephone number. Per Call Blocking is provided at no charge.

Terms and Conditions

10. **Call Identification Blocking-Per Line:** Provides a permanent private indicator on a customer's line. Once blocking is established on the customer's line, the private status cannot be deactivated by the customer. Rates and charges are provided herein. Federal, State and Local Law Enforcement Agencies, nonprofit domestic violence/sexual assault agencies and their staffs, and victims of domestic/sexual assault or individuals who express a personal safety need and sign a personal safety exemption form may be provided additional arrangements for private status and/or line blocking, on a line-by-line basis, at no charge.

(Customers do not receive notification that calls were rejected.)

F. PRICE LIST/RATE CARD

Rates for Cable TV Services are listed in Part 5.

G. TYPES OF CHARGES (FEES) ON YOUR BILL

1. Franchise - local municipal monthly charges for use of public right of way.
2. Retransmission – local broadcast station monthly charges for redistribution of their content.
3. Programming – all other channels monthly charges for distribution of their content.
4. Equipment Rental – service provider monthly charges for renting set top boxes, DVR, etc.
5. Taxes – all federal, state and local taxes as required by law.
6. Installation – a charge to install cable television in a home.

H. WHERE TO ASK QUESTIONS OR FILE COMPLAINTS

1. Contact the service provider for questions about customer service, billing, installations, outages, service requests and signal quality.
2. Contact the local franchising authority if the service provider has not resolved your issue and you have complaints about customer service, pricing, installations, outages, service requests and signal quality.
3. Contact the FCC at 1-888-225-5322 or send your inquiry to FCC, 445 12th Street, S.W., Washington, D.C. 20554 if you have questions or complaints about commercial limits for children's programming, indecency and obscenity, premise wiring and signal leakage.
4. Note: Cable systems with 1,000 or more subscribers are required to maintain certain documents in a public inspection file. These documents include a political programming file; sponsorship identification; EEO reports; commercial records for children's programming; leased access requirements; proof-of-performance tests; and signal leakage and repair logs. These are available for public inspection and copying. In addition, systems must have a current copy of Part 76 of the Commission's rules, which cover cable television.

I. OTHER OPTIONS FOR TELEVISION PROGRAMMING

1. Over the Air - Since 2009, all full-power TV broadcast stations can only be received in digital format. To watch a television station over the air without a pay TV subscription, you need either a digital TV or an analog TV connected to a digital-to-analog converter box. In either case, you will need an appropriate antenna connected to the TV or the converter box. Depending on your location, this could be either an outdoor or an indoor antenna and you may or may not receive a signal.
2. Online - Some programming can be accessed with a Broadband connection.
